Ultra Low-Maintenance Raised Panel Vinyl Carriage House Doors

**Durable one piece vinyl face construction - at home in harsh environments.
Available in a wide variety of styles.**

For over 87 years the Fimbel Family has redefined "cutting edge", bringing to the forefront new products and innovative designs. **Presidential** is the ultimate carved Raised Panel Carriage House Door. Low-maintenance and functionality in a superior design make Presidential an investment that will add long-lasting curb appeal and value to your home.

...Low Maintenance

Presidential Series doors are insulated 1 3/4" thick Carriage House Doors. The exterior and perimeter joints are solid High-Impact Vinyl which completely seals out the elements. The highly weatherable 3/4" thick carved PVC exterior can be left natural white, or can be Factory Finished. We use High-Performance, Heat Reflective, Molecularly Bonded paint and stain finishes that carry a full 15 year warranty.

Presidential not only looks great, it out performs steel and wood doors on every level. The energy-efficient **Presidential Series** does not dent easily or rust like steel. They will not radiate heat or cold through the door section - a notorious downfall of conventional stamped steel doors. **Presidential's** face will not warp, check, split or rot like wood. Additionally, **Presidential** has recyclable components.

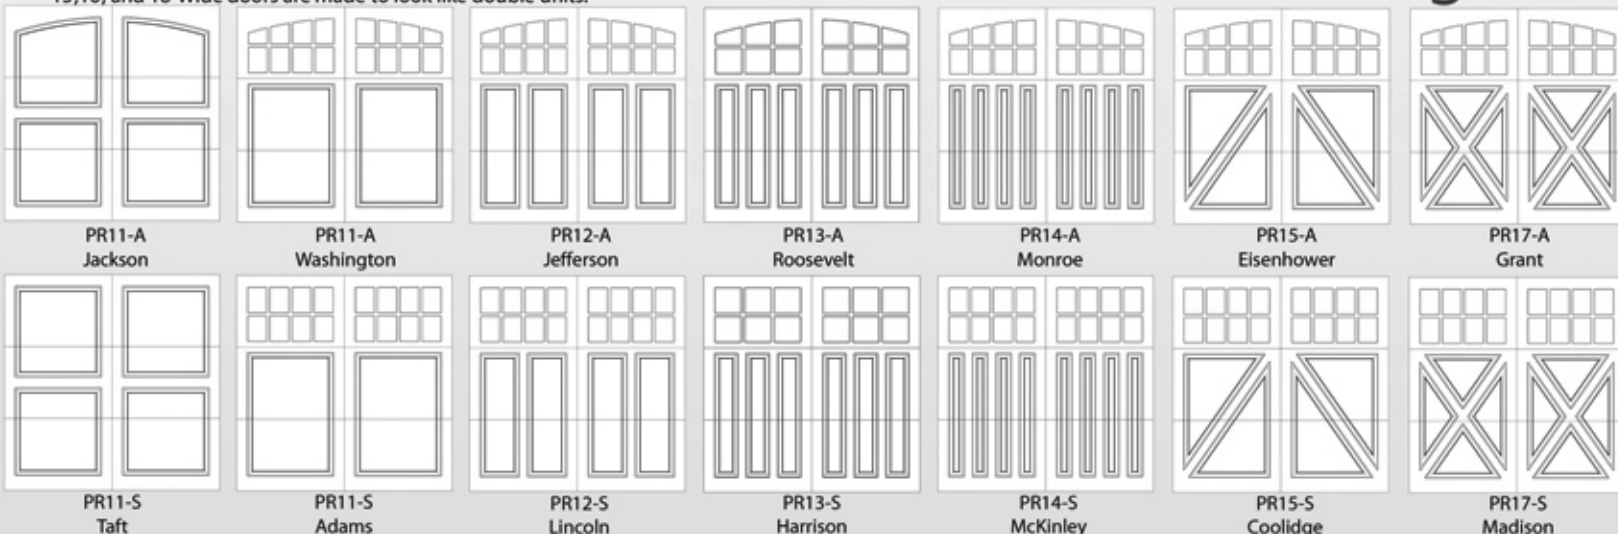

...Curb Appeal

The **Presidential** series is available in 8', 9', 10', 15', 16' and 18' wide by 6'6", 7'0", 7'6" and 8'0" high in the standard designs shown below. You can also swap out the top section, which is available in 6, 8, 12, and 16 lite designs, as well as a solid arch or square. Rounding out the package is a heavy-duty combination of high-quality springs and hardware, ensuring years of pleasurable operation. Should the need arise, we will be happy to provide you with a custom look or size. Please consult the Factory for additional information.
